RISK DISCLOSURE DOCUMENT

(TO BE GIVEN BY THE BROKERS TO THEIR CUSTOMERS)

THIS DOCUMENT SHOULD BE READ BY EACH AND EVERY PROSPECTIVE CLIENT BEFORE ENTERING INTO COMMODITY FUTURES TRADING AND SHOULD BE READ IN CONJUNCTION WITH REGULATIONS OF THE PAKISTAN MERCANTILE EXCHANGE LIMITED ("PMEX").

PMEX has not passed the merits of participating in this trading segment nor has PMEX passed the adequacy or accuracy of this disclosure document. This brief statement does not disclose all of the risks and other significant aspects of trading. In light of the risks, you should undertake such transactions only if you understand the nature of the Futures Contracts (and contractual relationships) into which you are entering and the extent of your exposure to risk. Risk of loss in trading in Commodity Futures Contracts can be substantial. You should carefully consider whether trading is appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances. Futures trading thus require not only the necessary financial resources but also the financial and emotional temperament. In case of any consequences or loss in the Futures segment, the Client shall be solely responsible for such loss and the Exchange shall not be responsible for the same and it will not be open for any Client to take the plea that no adequate disclosure was made or he was not explained the full risk involved by the Broker. The Client will be solely responsible for the consequences and no contract can be rescinded on that account.

RISKS INVOLVED IN TRADING IN FUTURES CONTRACTS

Effect of "Leverage" or "Gearing"

The amount of margin is small relative to the value of the Commodity Futures Contract so the transactions are 'leveraged' or 'geared'.

Commodity Futures trading, which is conducted with a relatively small amount of margin, provides the possibility of great profit or loss in comparison with the principal investment amount. But transactions in Futures carry a high degree of risk.

You should therefore completely understand the following statements before actually trading in Commodity Futures Contracts and also trade with caution while taking into account one's circumstances, financial resources, etc. If the prices move against you, you may lose a part of or the whole margin equivalent to the principal investment amount in a relatively short period of time. Moreover, the loss may exceed the original margin amount.

- I. Commodity Futures trading involves daily settlement of all positions. Every day the open positions are marked to market based on the Settlement price. If the settlement price has moved against you, you will be required to deposit the amount of loss (notional) resulting from such movement. This margin will have to be paid within a stipulated time frame, generally before commencement of trading next day.
- II. If you fail to deposit mark to market losses and additional margin by the deadline or if an outstanding debt occurs in your account, the Broker may, without any further notice to the Client, liquidate a part of, or the whole position, in order to bring the margin to the required level. In this case, you will be liable for any losses incurred due to such close outs.
- III. Under certain market conditions, an investor may find it difficult or impossible to execute transactions. For example, this situation can occur due to factors such as illiquidity i.e. when there are insufficient bids or offers or suspension of trading due to price limit or circuit breakers etc.
- IV. In order to maintain market stability, the following steps may be adopted: changes in the margin rate, increases in the cash margin rate or others. These new measures may be applied to the existing open interests. In such conditions, you will be required to put up additional margins or reduce your positions.
- V. You must ask your Broker to provide the full details of the Commodity Futures Contracts you plan to trade i.e. the contract specifications and the associated obligations and ensure that your Broker takes no positions without your express written authorization if you deem it necessary.

Risk-reducing orders or strategies

The placing of certain orders (e.g., "stop-loss" orders, or "stop-limit" orders), which are intended to limit losses to certain amounts, may not be effective because market conditions may make it impossible to execute such orders. Strategies using combinations of positions, such as "spread" positions, may be as risky as taking simple "long" or "short" positions.

Suspension or restriction of trading and pricing relationships

Market conditions (e.g., illiquidity) and/or the operation of the rules of certain markets (e.g., the suspension of trading in any contract or contact month because of price limits or "circuit breakers") may increase the risk of loss due to inability to liquidate/offset positions.

Deposited cash and property

You should familiarize yourself with the protections accorded to the money or other property you deposit particularly in the event of a firm insolvency or bankruptcy. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In some jurisdictions, property that has been specifically identifiable as your own will be pro-rated in the same manner as cash for purposes of distribution in the event of a shortfall. In case of any dispute with the Broker, the same shall be subject to arbitration as per the Regulations of the Exchange.

Commission and other charges

Before you begin to trade, you should obtain a clear explanation of all commission, fees and other charges for which you will be liable. These charges will affect your net profit (if any) or increase your loss.

Trading facilities

The Exchange offers electronic trading facilities, which are computer-based systems for order routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. Your ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the clearing house and/or Broker firms. Such limits may vary; you should ask the firm with which you deal for details in this respect.

This document does not disclose all of the risks and other significant aspects involved in trading on a Futures market. The Client should therefore study Futures trading carefully before becoming involved in it.

UNDERTAKING

I, the applicant, hereby acknowledge that I have received this Risk Disclosure Document and have read and understood the nature of all risks and other contents and information provided in this document.

AUTO LIQUIDATION ADDENDUM

(Addendum to the Special Terms and Conditions contained in AKD Securities Limited ("AKDSL") Commodities Futures Trading Account Opening Form)

_____ ("The Account Holder") has executed with AKDSL. Commodities Futures Trading Standardized Account Opening Form ("SAOF") on 20 in connection with the purchase and sale of Commodity Future Contracts and trading in Commodities Futures, including commodities futures contracts, options on commodities, options on futures contracts and forward or leverage contracts and any similar instruments which may be purchased or sold or traded in (collectively referred to as "Commodity Contracts"), by or through AKDSL for Account Holder's account at Pakistan Mercantile Exchange Limited ("PMEX") in accordance with the Rules and the Regulations of PMEX. All other provisions of the SAOF shall remain in full force and effect.

It is AKDSL's policy to have an auto liquidation activated in each account, to safe guard clients from excessive losses resulting from drastic market changes.

1. The Auto Liquidation function is set between 20%-25% of margin requirements or value of client open positions in all the contracts. In the event that the Account Holder's open position equals or is below 20%-25% of the total exposure in the open positions of one or all the contracts, then AKDSL may auto-liquidate all of the positions in the account and settle, close or cancel the pertinent Commodity Contract(s). The Auto-Liquidation Mechanism will send offsetting market orders directly to the appropriate electronic clearing network of PMEX or market maker; resulting in the closing of all open positions for the Account Holder's account.
2. The Account Holder acknowledges and agrees to his account being auto liquidated at the current market rate prevailing at the time of liquidation. If positions are unable to be offset due to market conditions, the Account Holder shall still remain liable for his/her positions and market risk in his/her account. Provided however, AKDSL does not guarantee or assure that the open position would stand liquidated since auto-liquidation Mechanism is subject to reasons and factors beyond the reasonable control of AKDSL. Further, the Account Holder shall be responsible to pay any debit balance that may result from his/her account being auto liquidated and shall not question or challenge the auto-liquidation due to any reasons whatsoever.
3. AKDSL has a right to increase at its sole discretion, the margin and/or auto-liquidation function rate(s) with or without prior notice to the Account Holder. In such a case the front office will inform their trader/sales person(s) to update the said changes to their clients via email or via recorded lines in the next 48 hours.
4. Principal Risk Factors associated with Auto-Liquidation. AKDSL can liquidate an account without prior notice to the Account Holder. This is especially the case in auto-liquidation. There are several risk factors associated with auto liquidation which the Account Holder hereby accepts. For instance, an account is automatically liquidated if AKDSL has received wrong data from the PMEX, or that there is a key punch error in recording the data. AKDSL is not responsible for wrong data it receives from PMEX or from market maker, nor is AKDSL responsible for late, lost, misdirected, undelivered, incomplete, illegible or unintelligible orders; unavailable network connections; failed, incomplete, garbled or delayed computer transmissions; keypunch errors; online failure or other technical malfunctions or disturbances. AKDSL shall also not be responsible if the positions cannot be squared up to Auto Liquidation Mechanism due to circumstances beyond its control. If the account value changes overnight, the account may be auto liquidated upon the opening of the market. Market volatility could cause an account to be auto-liquidated on short or relatively no notice to the Account Holder. All other risks associated with trading, are present even though AKDSL may exercise its rights to auto-liquidate.
5. This Auto Liquidation Addendum shall be supplemental to and not in derogation of the terms and conditions contained in the SAOF, which shall continue to remain in full force and effect amended as above.

The undersigned agrees, acknowledges, and understands the foregoing and agrees to be bound by the terms of this Addendum.
